Patty-O-Panels

Here is an exciting new idea for enclosing a patio, for screening outdoor living areas . . . for scores of interesting projects that will make your home a more beautiful, more satisfying place to live. A few of the possible applications are suggested in the sketches at the right, showing how the decorative woven panels add to the appearance of your grounds while providing privacy.

Patty-O-Panels consist of vertical slats with a horizontal strip woven through the verticals to provide a pleasing pattern. The slats are held in place by grooves in horizontal rails which are mounted on sturdy posts set in ground. Depending on assembly, they provide a fence about 4 feet high and 8 feet long. Simple assembly instructions on the opposite page show how quickly and easily the panels are erected, using only hammer, shovel, and screw driver or brace and bit.

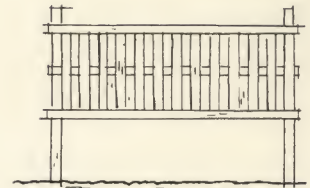

For your convenience, Patty-O-Panels are packaged in compact bundles, each containing all the materials for an 8-foot section. To make a screen of Patty-O-Panels, ask for the screening sections. These include longer posts, and enough materials for two regular panels, one above the other. The result is a tight fence, about 8 feet high.

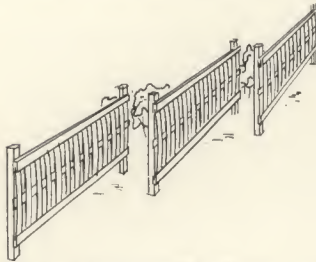

Eleven Interesting Ways to Arrange

Here is one way of arranging Patty-O-Panels to form a solid fence. Alternate panels are set back slightly, as shown in the top view. This is particularly adaptable for long fences, since it forms a very pleasing pattern, and avoids long, unbroken areas.

Mounting a Patty-O-Panel on slightly longer posts gives you additional privacy. Low shrubbery can be planted below the panels to complete the screen, if desired.

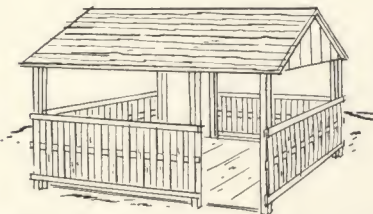

Set in a staggered pattern, with shrubs in the open spaces, Patty-O-Panels define an area, yet provide a more interesting, unusual effect than a straight fence.

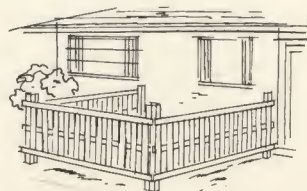

Where a tight fence is not desired, set panels in a straight line, leaving a few feet between each panel, and plant shrubs or evergreens in the gaps.

Another interesting variation is achieved by setting Patty-O-Panels in a saw-tooth pattern. The double screen sections can be arranged in this way, too.

To provide a sheltered play area for children, or a screened summer house, simply add a roof to four Patty-O-Panels. A floor can be added if desired.

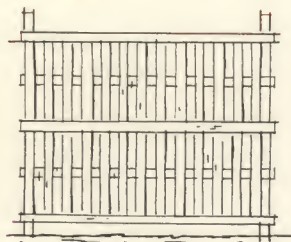

A play area like this, located where children can be supervised from the kitchen, can save a great deal of time and worry for a busy mother.

Ideal for patios and other outdoor living areas, Patty-O-Panels can be arranged in many ways to give the desired amount of shelter and privacy.

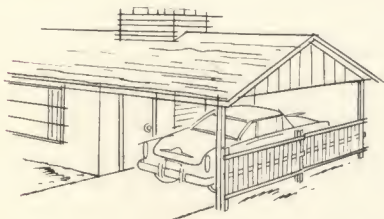

Patty-O-Panels

Patty-O-Panel screens like this provide complete privacy for outdoor living. They can be arranged in almost any of the patterns shown here—or according to your own plan.

This is just one simple and inexpensive way that these attractive woven panels can be used to add a note of distinction to a front walk or a driveway.

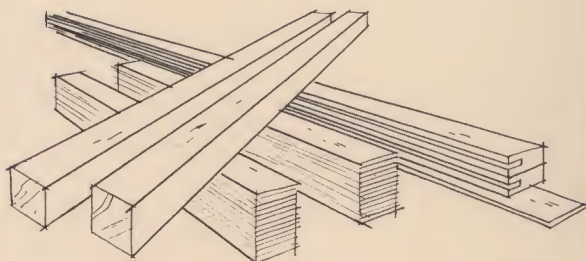

Single or double Patty-O-Panels offer a quick, inexpensive method of adding more protection to a car port. Panels can be finished to match house.

**IT'S SO EASY
TO ASSEMBLE**

Weyerhaeuser 4-SQUARE

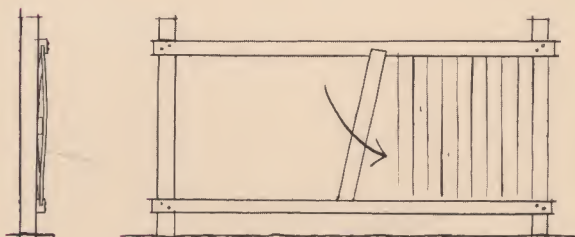

Patty-O-Panels

Each Patty-O-Panel section is complete in one bundle, except for hardware. Regular panels contain:

2 posts, 4"x4", 6' long 26 slats, 3/8"x4", 3' long
2 rails, 2"x4", 8' long 1 slat, 3/8"x4", 8' long

Screen panels contain twice as many vertical slats, an extra center rail and horizontal slat, and 10' posts. These are available in three bundles, for easier handling.

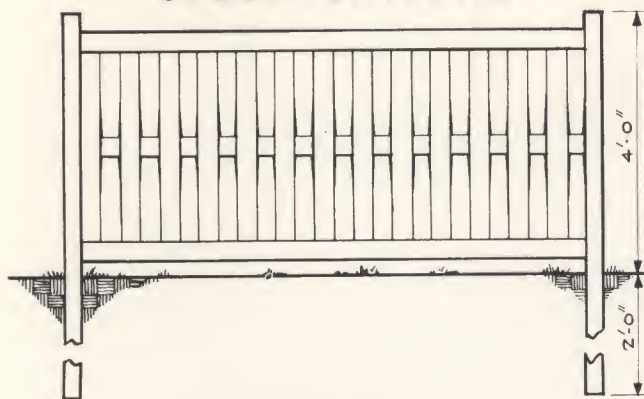

1. Bolt, screw or nail one rail any distance from top of posts, with grooved edge down.
2. Place other rail, grooved edge up, and insert one 3' slat in groove on each end of panel for correct spacing. Then fasten bottom rail to posts.
3. Slide balance of 3' slats into grooves to make solid panel.
4. Take 8' slat and weave through center of panel formed by 3' slats, and assembly is completed.
5. Dig post holes 8' apart and 2' deep. Set posts of completed section into holes, tamp and work is completed.

To give added life to fence, treat bottom rail and bottom of post with wood preservative as directed on back page.

Patty-O-Panels

SPECIFICATIONS

4' x 8' PANEL

Inland Red Cedar Posts, 2 pcs. 4" x 4" x 6' (Optional 7' or 8' lengths)
 Douglas Fir Top and Bottom Rails, 2 pcs. 2" x 4" x 8' (Grooved 1 edge)
 Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 26 pcs. 3/8" x 4" x 3'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slat, 1 pc. 3/8" x 4" x 8'
 This panel is shipped in two bundles:
 1 bundle—Posts, Top and Bottom Rails, Horizontal Slat.
 1 bundle—All Vertical Slats.

5' x 8' PANEL

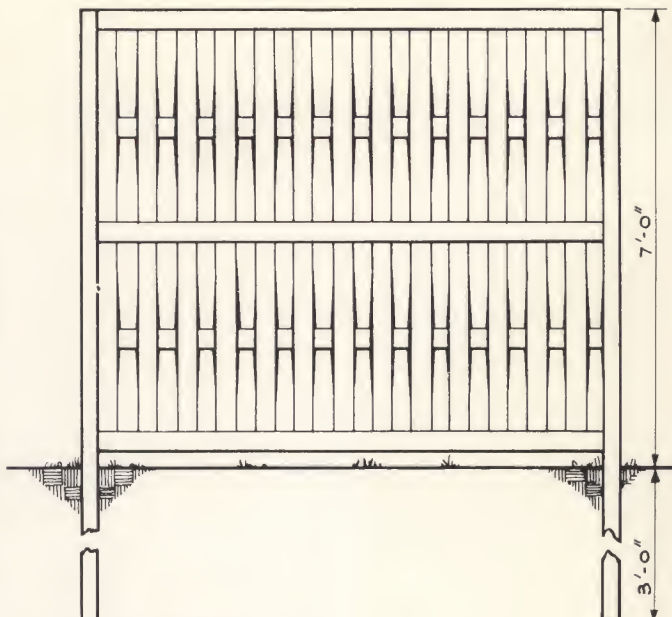

Inland Red Cedar Posts, 2 pcs. 4" x 4" x 8'
 Douglas Fir Top and Bottom Rails, 2 pcs. 2" x 4" x 8' (Grooved 1 edge)
 Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 26 pcs. 3/8" x 4" x 4'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slat, 1 pc. 3/8" x 4" x 8'
 This panel is shipped in two bundles:
 1 bundle—Posts, Top and Bottom Rails, Horizontal Slat.
 1 bundle—All Vertical Slats.

5' x 96' CONTINUOUS FENCE

This unit is 96 lineal feet (12 sections) with one 4" x 6" post for each 8' interval and each end, instead of the 4" x 4" posts in the single units.
 Inland Red Cedar Posts, 13 pcs. 4" x 6" x 8'
 Douglas Fir Top and Bottom Rails, 24 pcs. 2" x 4" x 8' (Grooved edge)
 Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 312 pcs. 3/8" x 4" x 4'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slats, 12 pcs. 3/8" x 4" x 8'
 This unit is shipped in 21 bundles:
 1 bundle—4 pcs. Posts; 3 bundles—3 pcs. Posts, each bundle; 4 bundles—6 pcs. Top and Bottom Rails each bundle; 12 bundles—26 pcs. Vertical Slats each bundle; 1 bundle—12 pcs. Horizontal Slats.

7' x 96' CONTINUOUS FENCE

This unit is 96 lineal feet (12 sections) with one 4" x 6" post for each 8' interval and each end, instead of the 4" x 4" posts in the single units.
 Inland Red Cedar Posts, 13 pcs. 4" x 6" x 10'
 Douglas Fir Top and Bottom Rails, 24 pcs. 2" x 4" x 8' (Grooved 1 edge)
 Douglas Fir Center Rail, 12 pcs. 2" x 4" x 8' (Grooved 2 edges)
 Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 624 pcs. 3/8" x 4" x 3'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slats, 24 pcs. 3/8" x 4" x 8'
 This unit is shipped in 38 bundles:
 1 bundle—3 pcs. Posts; 5 bundles—2 pcs. Posts each bundle; 4 bundles—6 pcs. Top and Bottom Rails per bundle; 2 bundles—6 pcs. Center Rail per bundle; 24 bundles—26 pcs. Vertical Slats per bundle; 2 bundles—12 pcs. Horizontal Slats per bundle.

7' x 8' PANEL

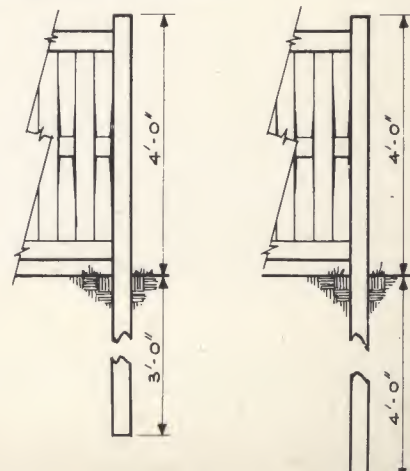

Inland Red Cedar Posts, 2 pcs. 4" x 4" x 10'
 Douglas Fir Top and Bottom Rails, 2 pcs. 2" x 4" x 8' (Grooved 1 edge)
 Douglas Fir Center Rail, 1 pc. 2" x 4" x 8' (Grooved 2 edges)
 Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 52 pcs. 3/8" x 4" x 3'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slats, 2 pcs. 3/8" x 4" x 8'
 This panel is shipped in three bundles:
 1 bundle—Posts.
 1 bundle—Top and Bottom Rails, Center Rail, Horizontal Slats.
 1 bundle—All Vertical Slats.

4' x 96' CONTINUOUS FENCE

This unit is 96 lineal feet (12 sections) with one 4" x 6" post for each 8' interval and each end, instead of the 4" x 4" posts in single units.
 Inland Red Cedar Posts, 13 pcs. 4" x 6" x 6' (Optional 7' or 8' length)
 Douglas Fir Top and Bottom Rails, 24 pcs. 2" x 4" x 8' (Grooved 1 edge)
 Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 312 pcs. 3/8" x 4" x 3'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slats, 12 pcs. 3/8" x 4" x 8'
 This unit is shipped in 21 bundles:
 1 bundle—4 pcs. Posts; 3 bundles—3 pcs. Posts, each bundle; 4 bundles—6 pcs. Top and Bottom Rails each bundle; 12 bundles—26 pcs. Vertical Slats each bundle; 1 bundle—12 pcs. Horizontal Slats.

SLATS

Choice of Knotty or Clear Inland
 Red Cedar Vertical Slats, 3/8" x 4" x 3' and 4'
 Choice of Knotty or Clear Inland
 Red Cedar Horizontal Slats, 3/8" x 4" x 8'
 Slats may be purchased without posts and rails and are bundled for shipment as follows:
 Vertical Slats—26 pcs. per bundle.
 Horizontal Slats—12 pcs. per bundle.

IDEAS FOR FINISHING

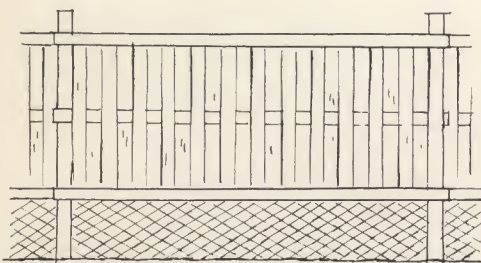

Patty-O-Panels

Paint Patty-O-Panels can be painted with any type of exterior wall covering or trim paint. To assure maximum coverage prime coat may be applied to all pieces before assembling. Apply finish coat after assembly. Interesting effects can be achieved by painting the horizontal slat a different color than the vertical slats. In this case horizontal slats should be installed as the final step in assembly.

Treating Dampness can attack your Patty-O-Panels in two places—in the groove of the bottom rail, and in the underground portion of the posts. To prolong the life of your fence, simply brush a good wood preservative over these two areas before assembling the panels. Be sure to apply plenty of preservative, and allow it time to dry before applying paint or stain. Your Weyerhaeuser 4-Square Lumber Dealer can recommend a suitable preservative, and tell you how to apply it.

Stain A variety of attractive wood stains are available to give your Patty-O-Panels the color you desire. When a stain is used instead of paint, the rough side of the slats can be faced inward. This will give you a very handsome fence, harmonizing very well with more rustic types of architecture. Ask your Weyerhaeuser 4-Square Lumber Dealer to show you the various colors of stains and how they may be applied to your Patty-O-Panel.

Natural Finishing Many people prefer to apply a natural finish to their Patty-O-Panels, to enjoy the beauty of the wood. A number of satisfactory clear finishes are available, and your Weyerhaeuser 4-Square Dealer will be glad to help you make a selection. Remember that you can arrange the slats so that the rough side is exposed if you decide on a natural finish, just as in the case of stain finishes.

DOG-PROOF FENCES

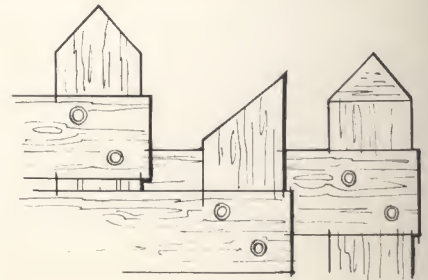

If you wish to raise the Patty-O-Panels high enough above the ground which might permit dogs to crawl under, yet wish to keep them out, stretch low netting under each panel. This may also be hidden by shrubbery.

HARDWARE

Because you may wish to select your own method of fastening the rails to the posts, hardware is not included in Patty-O-Panel bundles. Your Weyerhaeuser 4-Square Lumber dealer carries a variety of nails, bolts and screws, and will help you choose the best fastener for your need.

4-SQUARE**

POSTS

To protect the tops of the posts from moisture, and to add to the pleasing appearance of your Patty-O-Panels, cut the tops in one of these patterns. For added protection, brush the tops with wood preservative, prior to the application of finish.
